Good News Report: There are approximately 12 kids participating in the summer globetrotter program. We are hosting NKU graduate classes with master's seeking students working 1:1 with our students. There have been 3 graduates since school ended. There are 26 students in summer school. MS kids are successful at moving on and HS has earned 20+ half credits. Ms. Chan reported on the CDC grant where our students will create an advisory group for health awareness.

Public Comment: Ms. Cheryl Spahr requested that SBDM consider other classes to be offered to MS students instead of just Algebra and Spanish. Discussion was had on data used to justify offering, benefits of this (earning a chord) and scheduling difficulties to make this happen. SBDM will discuss further in the next meeting.
